	Insufficient	Moderate	Good	Very good	Excellent
a) Quality of indicators	[]	[]	[]	[]	[]
b) Software key functions	[]	[]	[]	[]	[]
c) User-friendliness	[]	[]	[]	[]	[]
d) Visual and design	[]	[]	[]	[]	[]

Please indicate areas for improvement of context/content:

3) Based on the exercises, how likely are you to utilize the ISACS software tool in your regional and/or national context?

Unsure at this time	Not likely to use	Likely to use	Very likely to use	Certain to use
[]	[]	[]	[]	[]

Please share your thoughts on what additional activities / tools / materials, if any, might help you in the use of the ISACS software tool:

B) Follow-up questions

1) Having participated in the training session, please share your thoughts on how the ISACS and its Assessment Tool can be applied in your regional and/or national context. Where possible, please provide detail on potential follow-up activities or initiatives in which the ISACS and/or the Assessment Tool could be utilized in supporting work on small arms and light weapons control.

2) Based on your professional experience in this field, what other guidance materials or assistance tools do you think would be useful when utilizing the ISACS, and/or other related international standards and guidelines, such as the International Ammunition Technical Guidelines (IATG), the International Mine Action Standards (IMAS), or the International Demobilization, Disarmament and Reintegration Standards (IDDRS)? In your opinion should any of these be integrated with the ISACS Assessment Tool to facilitate field operations on weapons and ammunition management? If yes, please specify the guidance you wish to see integrated into a comprehensive tool.

3) Please indicate any additional comments/questions that you may have regarding the ISACS Assessment Tool:
